FEATURES

- BRITE-MARK® is a general purpose paint marker that writes on almost any surface.
- Makes permanent bright marks on metal, rubber, plastic, glass, concrete, leather, stone, wood, vinyl and more.
- Quick drying, oil based, UV resistant paint withstands harsh indoor and outdoor conditions.
- Does not contain any HAP's (Hazardous Air Pollutants) which makes them a smart alternative to using spray paint and stencil for big, bold marks.
- Does not contain any reportable amounts of Xylene.
- Markers can be used to permanently identify inventory, assemblies, tools, finished products or work in progress while resisting most work related abuses or compounds.
- Valve action mechanism prevents paint in barrel from drying when the cap is left off.
- Bullet tips are replaceable to assure complete use of paint in each marker.
- Heavy duty aluminum body with large paint capacity.
- Threaded cap and barrel that can be screwed into a jig or fixture for a continuous marking process.
