LPS® DETEX® Empty Trigger Bottle

FEATURES

- Metal and X-ray detectable packaging
- Adjustable spray stream to ensure proper application
- Durable, chemical resistant bottle
- Ergonomic, 3-finger trigger to reduce finger fatigue
- Reduces potential food product contamination and assist with HACCP requirements

APPLICATIONS

- Can be used to dispense any NSF-approved bulk LPS® product

SPECIFICATIONS AND APPROVALS

- Halal Product Certified #HP- 7590- CH • Kosher Certified

METAL DETECTION DETAILS

1. Detection limits for a particular machine depend on a variety of factors including line speed, contaminant placement and orientation, iron fortification (i.e.; flour), wet mode vs. dry mode, fragment size, aperture size, etc. It is the responsibility of the end- user to determine the detection limits of the appropriate DETEX® component for the individual line set up and for the particular food product being inspected.
2. Metal and X-ray detection limits for plastic components (above) are based on whole components. Partial plastic and scouring pad components may not be detectable due to detector limitations, partial component size, malfunctioning equipment and/or the type of food product undergoing processing. Scouring pad not X-ray detectable.
3. ITW Pro Brands recommends that all components be tested prior to implementation (separately and included in the processed food product) and/or consult your specific metal detector equipment manufacturer directly.
4. Product shelf life, warranty, and material safety data sheets are available at www.itwprobrands.com. ITW Pro Brands is not responsible for use of this product inconsistent with its instructions and warnings.
5. ITW Pro Brands is not responsible for failure to detect components due to detector limitations and/or detector malfunctions. Refer to the metal detector manufacturer's design limitations, instructions, and warnings regarding the use, limitations, and proper maintenance of the equipment.
